Bulletin. In particular, the members exchanged views on a "revised legend" circulated at the meeting, which was proposed for insertion in the Bulletin. An amended version "C" of paragraph 4 of this legend was approved which indicated that when, because of the time factor, consultation with the department or agency of primary concern is not practicable the item will be produced by CIA and marked with an asterisk. The members also agreed that the revised legend should be used without any further changes at the present time, subject to possible later modification in paragraph 1 along the lines suggested by Mr. Cumming and Mr. Dulles. In addition, after discussion the members agreed that the question of dissemination should be reviewed further by the IAC representatives who were participating in the production of the Bulletin.
